Job Description

The ideal candidate for the Exploration Health, Safety & Environment Student position should be interested in pursuing a career in either the mineral exploration industry – or – the field of industrial health, safety and environmental management. Through this placement, the student will develop an understanding of working in a professional environment and gain exposure to how Teck Exploration's HS&E management system is implemented and monitored across our global footprint.

Reporting to the Manager, Exploration – HS&E, the student will provide support to the global HS&E leadership at our Vancouver Head Office. The student will be exposed to topics related to HS&E performance and risk exposure data collection, management and reporting.

Responsibilities may include:

- Support to the Manager, Exploration – HS&E for:
 - Redesigning the records management system (spreadsheet or database) for tracking HS&E performance and risk exposure;
 - Updating management reporting documents to more clearly present performance metrics in their operational context and simplify monthly updates;
 - Data entry and data validation of information from reports

Qualifications:

- Organized, quick learner and punctual
- Knowledgeable of spreadsheet and database applications
- An interest and aptitude in presenting information in an engaging visual form
- Attention to detail and can work independently
- Interested in learning about the various aspects of the mining industry and the environmental and/or safety fields.
- Preference will be given to those students considering course work in Geosciences, Health & Safety or Environmental Science.
- Ability to use MS Excel and Word. Exposure to Microsoft Outlook, Access, Explorer and PowerPoint would be an asset.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Your application to this posting is deemed to be your consent to the collection, use and necessary disclosure of personal information for the purposes of recruitment. Teck respects the privacy of all applicants and the confidentiality of personal information.

Teck is a diversified resource company committed to responsible mining and mineral development with major business units focused on copper, steelmaking coal, zinc and energy. Headquartered in Vancouver, Canada, its shares are listed on the Toronto Stock Exchange under the symbols TCK.A and TCK.B and the New York Stock Exchange under the symbol TCK. Teck has been named to the Dow Jones Sustainability World Index (DJSI) for the sixth straight year, indicating that Teck's sustainability practices rank in the top 10 per cent of the world's 2,500 largest public companies.

At Teck, we value diversity. Our teams work collaboratively and respect each person's unique perspective and contribution.
