

BCIT 2024 Biotechnology Career Awareness Program

WORKSHOP B – APRIL 15 – 19, 2024

This package contains:

- Program Overview
- Summary of Events
- Criteria
- Workshop Descriptions
- Career options
- Application form

Program Overview

Welcome to the fifteenth year of the Biotechnology Career Awareness Program. The program is directed at Grade 10, 11 and 12 students with a strong interest in science who want to learn more about applying biology to real-world problems such as human disease. It is built on a partnership between BCIT, local biotechnology companies and participating school districts.

The program consists of a series of integrated elements:

- A student application and selection process
- Laboratory workshops at BCIT
- Industry visit

There will be **24** openings for the workshops and industry visits. The program assigns a student quota to each district and every effort will be made to accommodate interested students if district quotas are not filled.

Districts can be responsible for student selection ensuring that students meet the selection criteria (please see Selection Criteria).

The program will provide bus transportation (when applicable) between the laboratory and the industry site. The Biotechnology Career Awareness Program instructors endeavor to improve the program each year. We welcome your feedback on any part of the program at any time.

Thank you for helping make the program the success it has become.

The Program Planning Committee

Getting Started

- ✓ District coordinator, teacher, school representative OR qualified students send application forms to kathy.white@bcit.ca, Program Assistant for the BCIT Biotechnology department by **MONDAY, MARCH 25th, 2024.**

NOTE TO DISTRICT COORDINATORS/TEACHERS/FACILITATORS/

If possible, please submit completed forms as soon as they are received to secure seat bookings. Applications are accepted until the end of March and workshop placements are on a **first-come first-served** basis.

TUITION FEES:

Domestic student course fee: \$245.64.

International student course fee (3X domestic): approx. \$736.00

International students:

If you are not a Canadian citizen or permanent resident of Canada, you will be required to pay international tuition fees at BCIT. Please make sure you are aware of the approximate fee which must be paid in FULL upon registration.

Applicants that are not successful for Workshop B will have to re-apply for Workshop A in the Fall, 2024.

Application and acceptance process for **WORKSHOP B: APRIL 15 – 19, 2024.**

1. Applicant creates BCIT student number <https://secure.bcit.ca/sis/reg/> and **INCLUDES NUMBER ON APPLICATION FORM (required field).**
2. Accepted students **will be notified via email** the week of **MARCH 25th, 2024** and directed on how to pay their tuition fees:
<http://www.bcit.ca/study/courses/biot0001>
3. **In order to confirm seat, each student fee payment MUST be made to BCIT no later than FRIDAY, APRIL 5th.** If payment does not occur by the deadline, the seat will be offered to applicants on the waiting list.

Information for Accepted Students

PAYMENT OPTIONS

BCIT offers a variety of convenient payment options for tuition and related student fees:

- ✓ Online banking (bill payment)
- ✓ In-person – cash, debit card, cheque, bank draft, money order

Please note, BCIT **does not accept credit cards** for payment of tuition and related student fees or for rent.

1. **Online banking (bill payment):** BCIT accepts payment from Canadian banks and credit unions and it is the **recommended method** for paying your fees. Payments can be made quickly and at your convenience through your bank's online services using your home computer, tablet or smartphone.

Canadian financial institutions have two payment options: Tuition and Rent. Find the bill payments section on your institutions' website and add **"BCIT – Tuition Payments"** as a **PAYEE** to pay for your courses. **DO NOT** use the rent option to pay for tuition as this could result in you being dropped from courses for non-payment. **Your nine (9) digit student ID (A#####) is your account number.** If the student ID is not present, the funds will be returned to your financial institution.

Please note there may be a delay of up to 48 hours from when you make your payment to when the payment reaches BCIT, so ensure you schedule sufficient time before your payment deadline. **You can view your BCIT receipt in your myBCIT account to confirm payment has been received by BCIT.** [View instructions](#)

2. **In-person (Student Information and Enrolment Services):**

Customers can choose from a variety of in-person payment options including:

- Cash
- Debit card – please keep in mind your daily transaction limit
- Cheque – please ensure the cheque is made payable to BCIT and includes your student ID
- Bank draft
- Money order

Selection Criteria

Eligible students must:

- ✓ Have an expressed interest in science-related curriculum, be enthusiastic about scientific research and lab work, and be interested in learning about careers related to biotechnology
- ✓ Be a Grade 10, 11 or 12 student (preference given to Grade 12 students first).
- ✓ Actively participate in the lab-based workshops and attend all sessions
- ✓ Be able to initiate and maintain conversation with practicing professionals at an industry site concerning occupational information and scientific focus

Student Sponsorship

- ✓ If a school/district would like to fund their students, BCIT can send an invoice to the sponsoring organization. Payment can then be made by cheque or electronic funds transfer. BCIT's payment terms for sponsorship invoices are net 20 days. Please let Kathy White know if you need more information on sponsorship (kathy.white@bcit.ca)

Refunds

- ✓ Refunds for students who cancel their participation in the Program will be reviewed under BCIT's part time studies refund guidelines and ultimately determined by the staff in BCIT's School of Health Sciences.
- ✓ **Two (2) weeks' notice** for cancellation is required in order for student to receive refund.

Please contact the **Biotechnology Program Assistant** for further information.

BCIT Workshop Description

Monday Lecture AM Lab	What is Biotechnology? The component technologies Lab1: Use of Micropipettors and Spectrophotometers Lab 2: Preparation of culture
Tuesday Lecture AM Lab	Basic Biotechnology Principles <ul style="list-style-type: none"> Cell theory The role of Protein How genes are turned into proteins Extra-chromosomal DNA Cell Culture Theory <ul style="list-style-type: none"> Defining Cell Culture Animal Cell culture Plant Cell culture Recombinant DNA Technologies <ul style="list-style-type: none"> Selective breeding Molecular Cloning Lab 3: Plasmid Preparation Lab 4: Animal Cell Culture
Wednesday Lecture AM Lab	Applications in Health Care <ul style="list-style-type: none"> Diagnosis of disease Treatment of disease Applications in Plant agriculture <ul style="list-style-type: none"> Genetic engineering in plants Micropropagation of plants Lab 4: Restriction digests and gel electrophoresis Lab 5: DNA Fingerprinting Lab 6: Plant cell culture
Thursday Lecture AM Lab	Immunology <ul style="list-style-type: none"> Monoclonal antibodies CAR-T therapy Component technologies recap Lab 8: Cell staining and microscopy
Friday AM Lecture PM	Industry Visit Biotech in the News, Joint UBC-BCIT Biotech Program

★ Schedule subject to change

Examples of Careers in Biotechnology

In Research & Development

Research Scientist

- Responsible for initiating, directing and executing all preclinical scientific research and/or development strategies for a company through the research staff or individual studies which are critical.
- Typically requires a PhD in a scientific discipline.

Research Associate

- Responsible for research and/or development in collaboration with others for projects.
- Typically requires a B.Sc. or a M.Sc. in related field.

Laboratory Assistant

- Responsible for performing a wide variety of research and/or development, laboratory tasks and experiments.
- Requires a high school diploma or some laboratory experience.

Quality Control Analyst

- Responsible for conducting routine and non-routine analysis of raw materials, in process, and finished formulations according to standard operating procedures.
- Typically requires a B.Sc.

Quality Assurance Associate

- Responsible for performing a wide variety of activities pertaining to assuring compliance with applicable regulatory requirements by conducting audits, training programs, data and documentation reviews and analysis.
- Typically requires a B.Sc.

In Regulatory Affairs and Biomanufacturing

Regulatory Affairs Associate

- Responsible for the coordination and preparation of document packages for regulatory submissions to regulatory bodies, such as the Food and Drug Administration (FDA) in the US and the Therapeutic Drug Program in Canada,
- Performs internal audits and inspections.
- Typically requires a B.Sc.

Manufacturing Associate

- Responsible for the implementation of production and large scale manufacturing
- Procedures to optimize processes and regulatory requirements.
- Typically requires a B.Sc.

Process Development Scientist

- Responsible for the development of methods for the production, purification, fermentation and testing of new process formulas, technologies and products.
- Typically requires a PhD in a scientific discipline.

In Clinical Research**Medical Director**

- Responsible for managing the direction, planning, execution, and interpretation of clinical trials (clinical trials are research involving humans) and the data collection activities.
- Typically requires a MD or PhD.

Medical Writer

- Responsible for researching, writing, and editing clinical reports, summarizing data from clinical studies for submissions to the FDA and for publication and/or presentation.
- Typically requires a B.Sc. or M.Sc.

Clinical Research Associate

- Responsible for the design, planning, implementation and overall direction of clinical research projects.
- Typically requires a B.Sc., RN or BSN degree.

Biostatistician

- Responsible for the design, development, modification and evaluation of a technical infrastructure to expedite conducting and evaluation of clinical trials.
- Typically requires a M.Sc. or PhD.

WORKSHOP B: APRIL 15 – 19, 2024
BIOTECHNOLOGY CAREER AWARENESS PROGRAM
E-mail application form to:
Kathy_white@bcit.ca

**** Complete this form online if possible or please print clearly ****

BCIT Student Number: A01: _____ (required field)
