

These are some photos of the rocks me and my family made

I wrote thank you on one of my rocks because I want the nurses and Doctors and other people who help us to know that we are lucky to have them. I hid it at school in the tree near the doors. I put a heart on the second one because I thought it would cheer people up! I put it on the same tree as the other one. I chose the tree because I thought that it's a good spot for people to see it.
