

## Recording Your Story – Using online Vocaroo

---

If you're looking for a quick and easy online recorder to share your audio stories, then **Vocaroo** is it. (<http://vocaroo.com>)

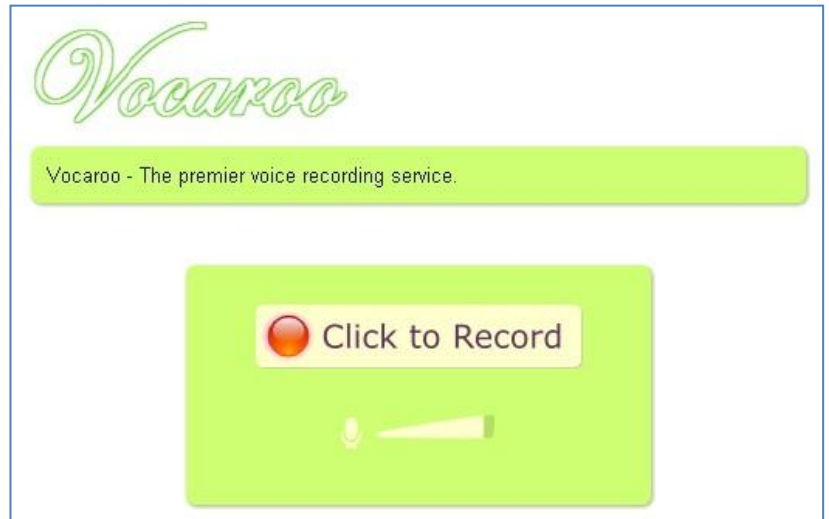

Connect your microphone to your computer (some laptops have their own mics).

Launch browser.

Go to website:

<http://vocaroo.com>

When ready, press **Click to Record**.

Adobe Flash Player Settings popup – Choose **Allow**.

Recording will automatically start.

When finished, click **Stop**.

You can choose to **Listen** to your recording or **Retry** to record again.

When you are happy with the recording, **click to save**.

Several options for saving will appear.

If you are using the recording for your blogs, choose the **download as mp3**.

**Name** and **Save** the mp3 file to a location on your computer.
