

# HOW DO YOU TEACH WITH TECHNOLOGY?

Do you use technology to enhance the education process in your classroom or school?

Teachers are using computers, the Internet, social media and many other technologies to improve many aspects of the education process such as presentation, communication, research, collaboration, problem-solving and creativity.

CDW Canada, a leading provider of technology solutions, is dedicated to enabling a richer learning environment.

**\$5,500**  
of Technology Prizes  
to be selected by you!

### TWEET UR TECH TALE CONTEST

**\$500**  
of Technology Prizes  
to be selected by you!

*How does technology improve the learning experience in your classroom or school? Tell us in writing, in 200 to 500 words.*

Do you use technology (computers, Internet, social media, networks, smartphones, etc.) to improve your learning environment or achieve a particular education objective? Tell us in a Word file and you could be judged the winner!

*Video yourself telling us how technology improves the learning experience in your classroom or school.*

Get creative! Grab a video camera and show and tell how technology (computers, Internet, social media, networks, smartphones, etc.) has improved your learning environment or achieved a particular education objective.

*Simply enter to win! It's free and there's no obligation.*

If you're a K-12 teacher, a school administrator or a school board IT professional, enter the sweepstakes for your chance to be a lucky winner.

*Tell us – in a tweet – how technology improves the learning experience in your classroom or school.*

Tweet us about how technology improves the learning experience in your classroom or school ... and remember, you only have 140 characters or less, so be creative! Twitter your way to [http://twitter.com/teaching\\_w\\_tech](http://twitter.com/teaching_w_tech) and use the hashtag #twtcda.
