

# We Remember

*Words & Music by Allan Crossley*

## **Chorus:**

We remember a time when the fighting ceased  
We remember a time when there was peace  
The world was quiet for a heartbeat  
And then  
The birds started singing again  
There was a promise of spring again  
We remember  
We remember  
We remember

## **Verse 1:**

It seems so long ago and far away  
In places that are only names  
Fathers and husbands and sons  
Mothers and daughters left their homes  
Giving their all for what they believed  
Giving their all for those they had to leave

## **Chorus**

## **Verse 2:**

We stand to laud the fallen and the brave  
Who stood for us in harm's way  
Marking with crosses those lives  
Who'll never see these morning skies  
And by this silence we do proclaim  
Remembering now their sacrifice, their names

## **Chorus**

## **Bridge:**

In that moment of silence  
I can hear my heart beat  
Surrounded by silent witnesses  
Who guard our peace

## **Chorus**

We remember  
We remember
