

Sweet Silent Night

Andy Beck

All is calm, all is bright
On this sweet silent night.

On the white winter snow
Heavenly stars cast their glow.

Stars above, shine their light
On this sweet silent night
On this sweet silent night.

Sparkling jewels, twinkling bright
On this sweet silent night
On this sweet silent night.

And the snow comes down (*and the snow
comes down*)
Floating to the ground (*floating to the
ground*)
And without a sound (*and without a sound*)
The world turns white.

And the snow comes down (*and the snow
comes down*)
Floating to the ground (*floating to the
ground*)
And without a sound (*and without a sound*)
The world turns white.

Silent night (Holy night)

Hearts take hold, dreams take flight
On this sweet silent night
On this sweet silent night.
