

How to Find Elements for Your Citation – Online Resources

The image shows a screenshot of a web browser displaying a CBC News article. Several callout boxes with arrows point to specific elements on the page:

- URL for the site; domain name is .ca**: Points to the address bar showing `cbc.ca/news/technology/climate-2019-1.5427586`.
- Website title**: Points to the CBC logo in the top navigation bar.
- Webpage title**: Points to the main headline: "No one will be untouched by a warming planet, scientists say".
- Author – can click on link to get more info**: Points to the author's name, "Nicole Mortillaro".
- Date updated**: Points to the text "Last Updated: January 16".

The article content includes the headline, social media sharing icons, a sub-headline "The cost of climate change is more than numbers — it's the human toll, experts say", and a photograph of an elderly woman, Nancy Allen, standing in front of a house during a bushfire. Below the photo is a caption: "Nancy Allen and Brian Allen stand outside of a home as high winds push smoke and ash from the Currowan Fire towards Nowra, New South Wales, Australia on Jan. 4, 2020. Thousands of homes have been destroyed as a result of some of the worst bushfires in Australia's history. (Tracey Nearmy/Reuters)".

6. The Industrial

The Industrial Revolution marked a period of development in the latter half of the 18th century that transformed largely rural, agrarian societies in Europe and America into industrialized, urban ones.

Goods that had once been painstakingly crafted by hand started to be produced in mass quantities by machines in factories, thanks to the introduction of
