

# Draw-Our-Schoolyard

## \*Map Challenge\*

*Are you interested in a Mapping Challenge? We need you!  
Maps are due **Monday, March 29, 2021.***

### What:

- Draw a map of the school yard. Everything between 16<sup>th</sup> Avenue, 17<sup>th</sup> Avenue, 1<sup>st</sup> Street, and 2<sup>nd</sup> Street:

- Your map must include:
  - Buildings, Playgrounds, Fences, Benches, Planters
  - Trees, Bushes (large plants)
  - Any other notable objects within this area
- Size of paper: 8.5 x 11, 8.5 x 14, or 11 x 17
- You do not need to label everything, just have an outline of the buildings and playgrounds, and use symbols to represent plants and trees: small circles for bushes and plants, larger circles for trees. We want to know where the plants and trees are in relation to landmarks like buildings. Please see sample map below.
- Be neat! Draw in pencil then go over it in black fine liner. Use a ruler for straight lines. Or, draw your map on a computer.

Who can enter this challenge: Any Second Street Students from Kindergarten to Grade 7. Yes, your family can help you.

When: Hand your map to Ms. Spracklin by **Monday, March 29, 2021**

Why: We would like to have a school map that everyone in our school and community can use, to learn more about the trees and plants that we have. We want a map that will be easy for anyone to use to locate and identify a plant or tree.

You create the map, we will label it. **Your prize is your first name and last initial on the map that everyone in the Second Street Community uses!**

Having a map will allow classes to learn more about the local plants and trees. We are hoping that classes will learn to identify plants and trees on the school yard by using the map, then go into Robert Burnaby Park and nearby forests to find some of the same plants and trees.

Questions:

Teachers if you have any questions please ask Ms. Spracklin, Kevin, or Mr. Giroux.

Thank you, and have fun!!
