

3rd Person Singular Verbs Activity

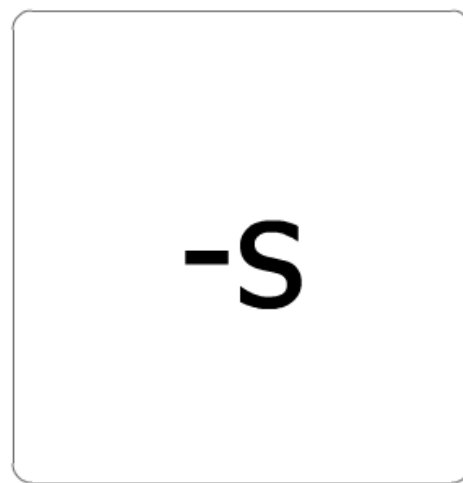

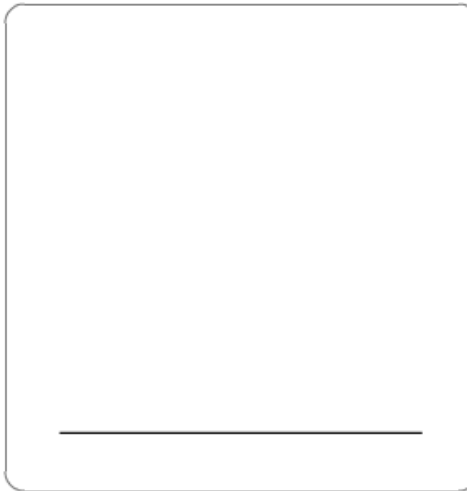

The purpose of this activity is for your child to learn how to add the -s ending to a verb when it is paired with a 3rd person singular subject. You are going to build a variety of sentences with your child. You can cut out the sentence strips and verbs, if you are able. Or you can have your child choose the sentence starter and then the verb they are going to use each time.

He

She

The dog

-s

The monster

-s
