

# Making Mistakes

Students go to school to learn. Most students do not know how to do all the work at school.

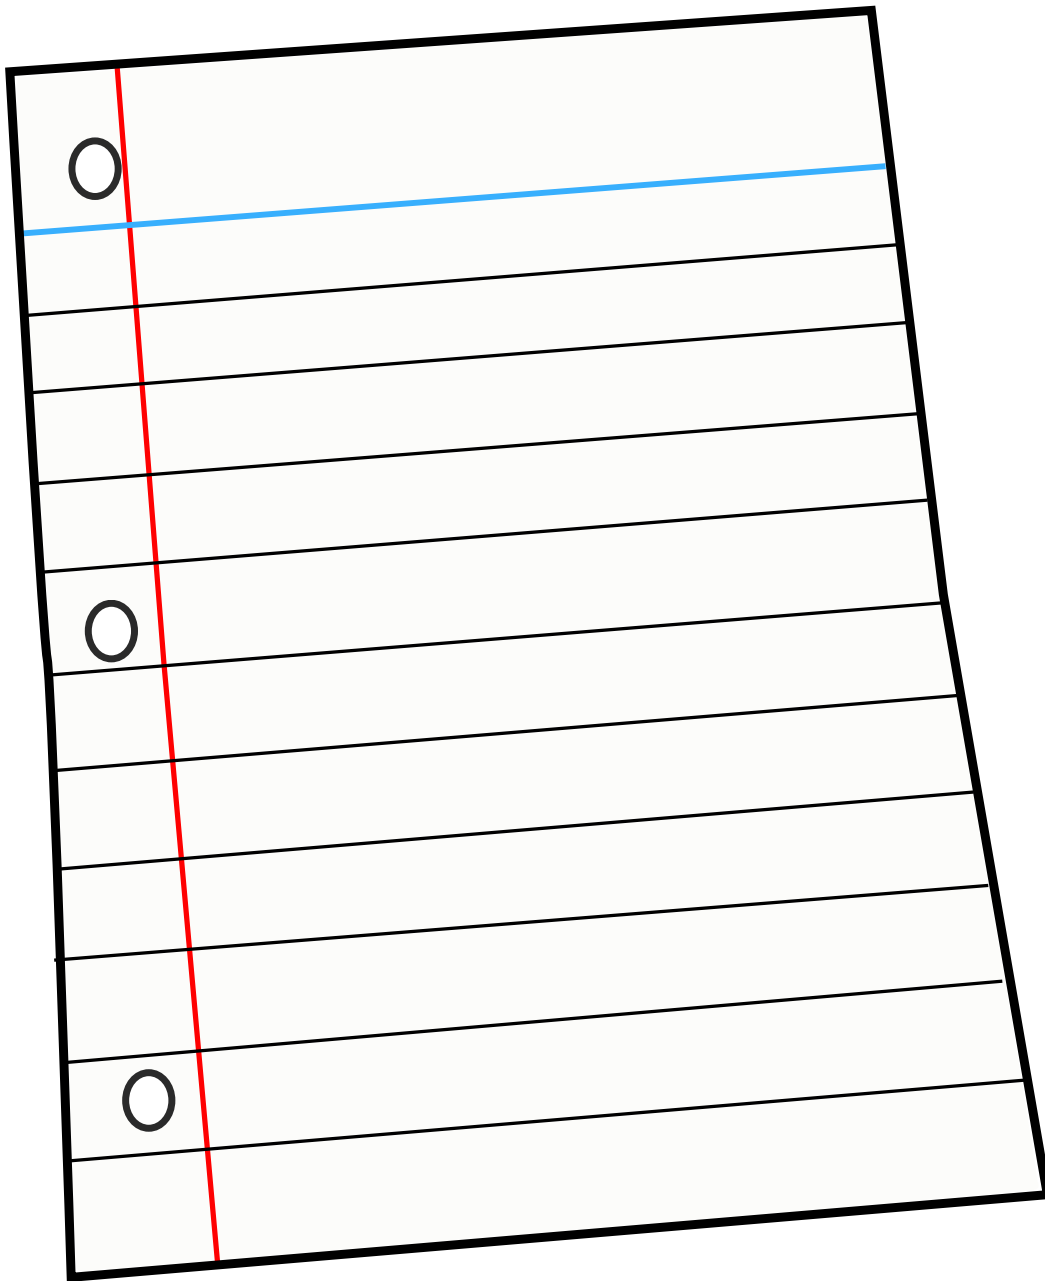

The teachers teach the students  
how to do new things.

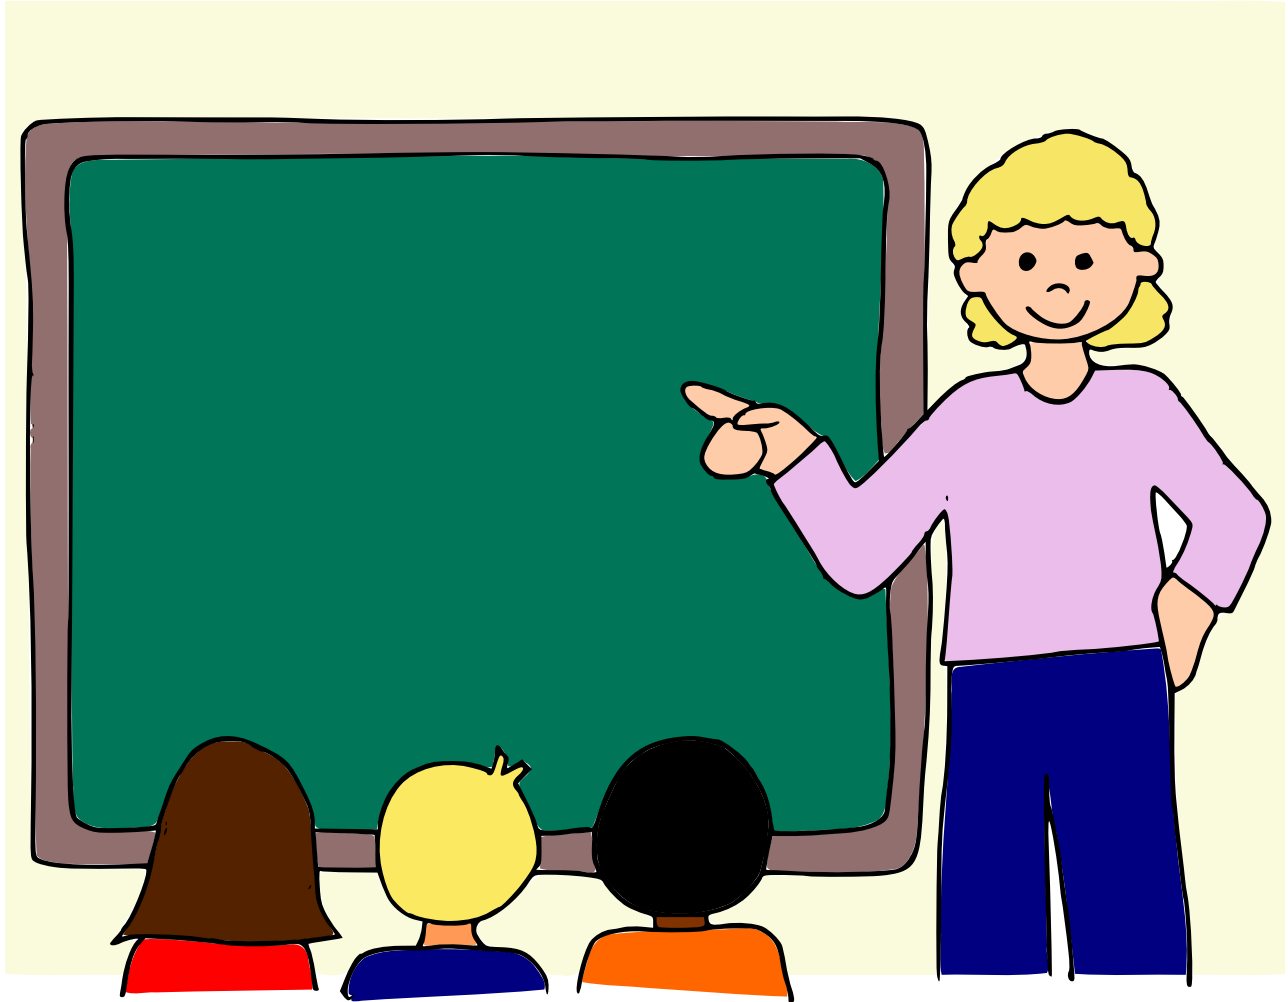

Sometimes the work is easy and I  
know how to do it.

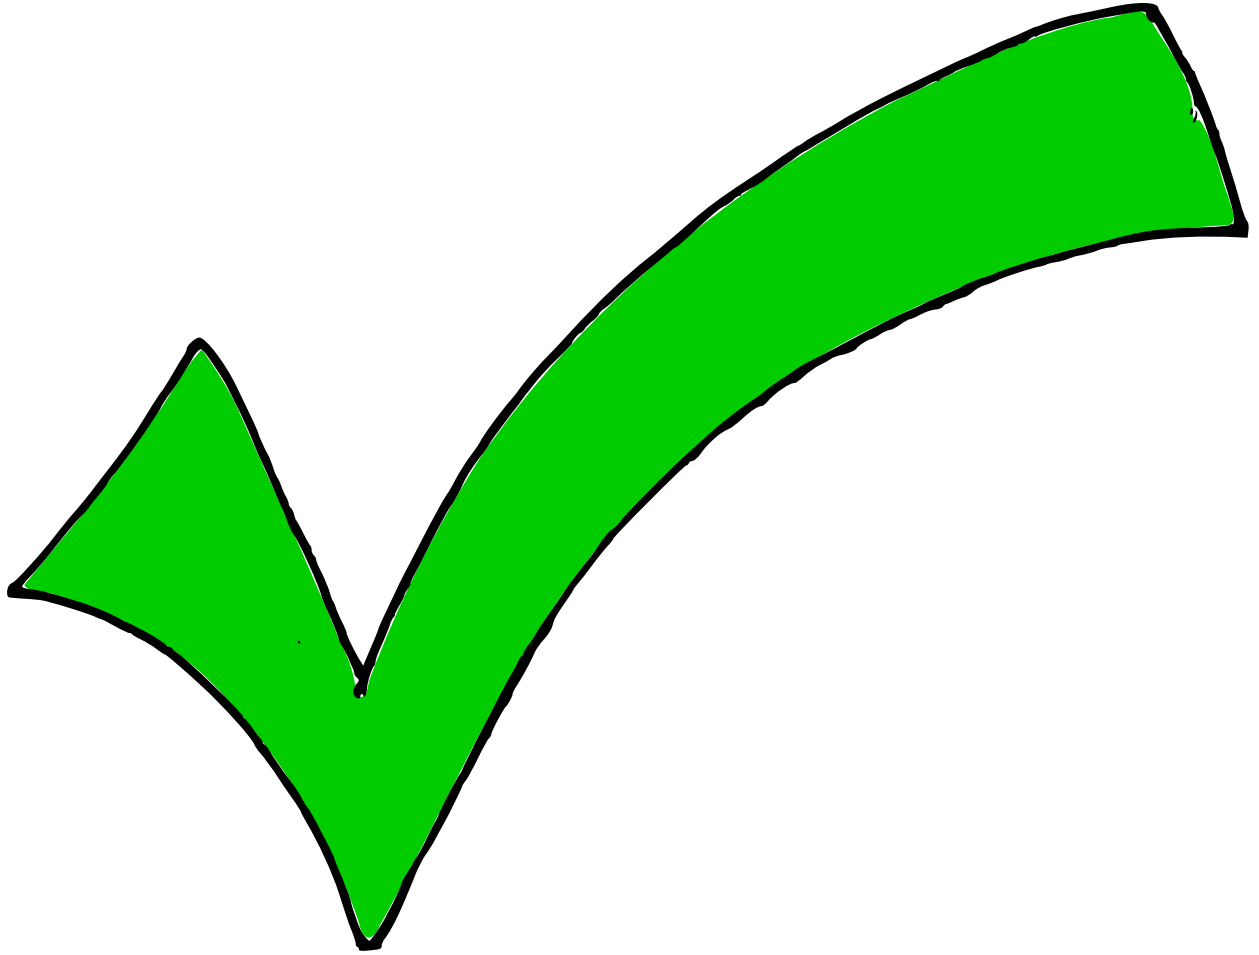

Sometimes the work is hard and I am not sure how to do it.

My teacher might give me a paper to  
do.

If I don't understand what I am doing, I can ask the teacher for help.

After I do the work, my teacher will check it. She might mark some wrong if I made a mistake.

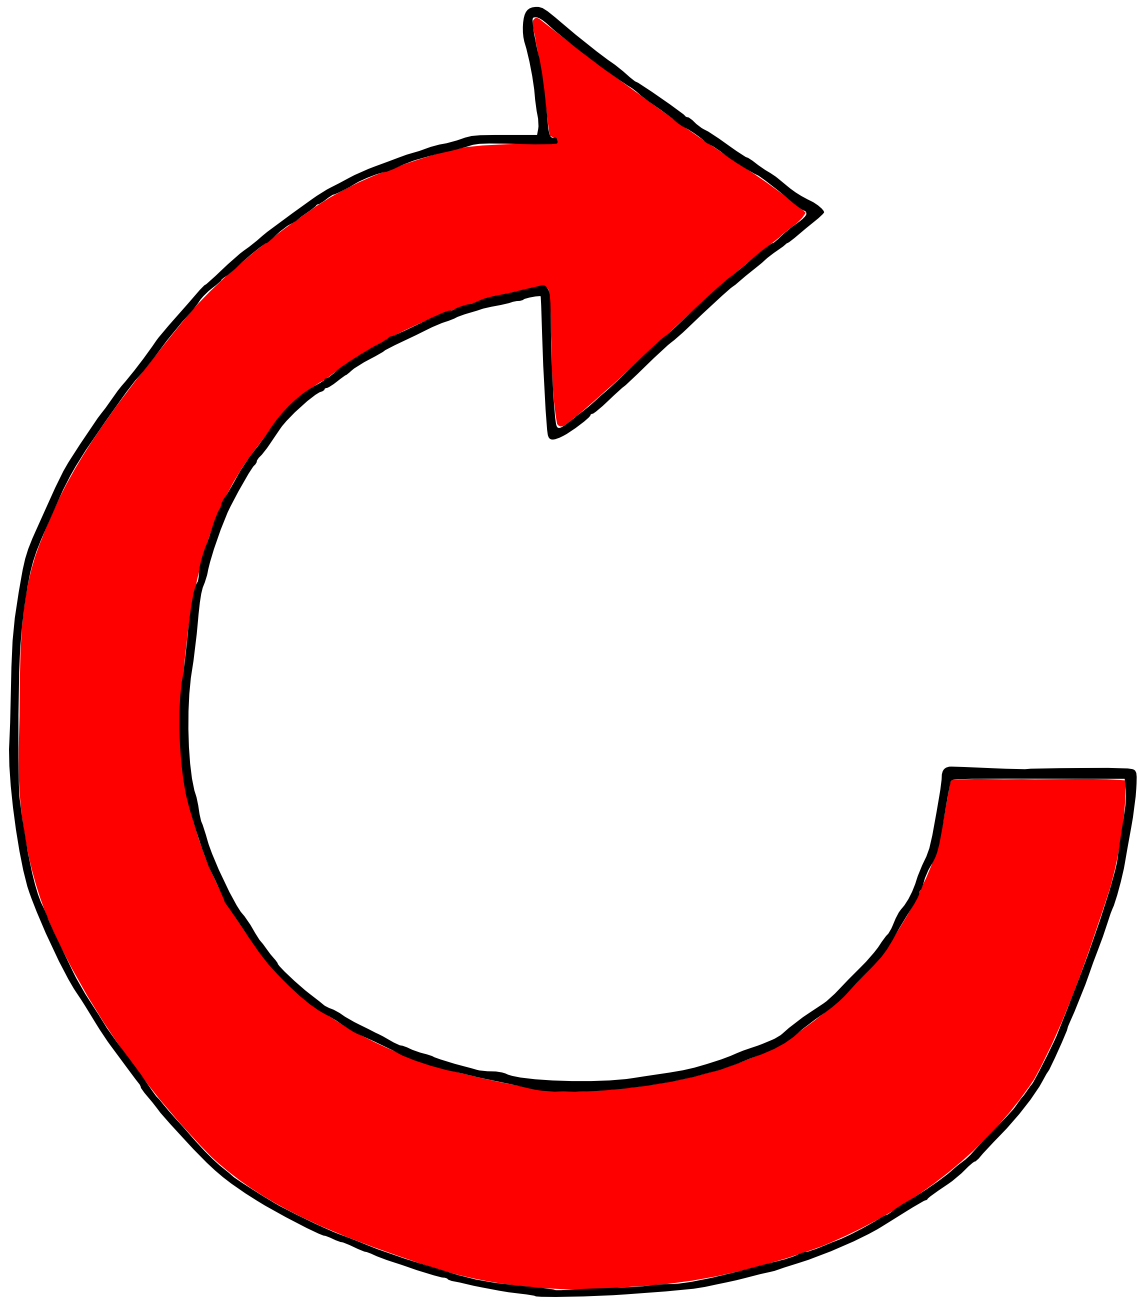

# ABC

I might not get a good grade on  
everything That is okay if I am  
trying.

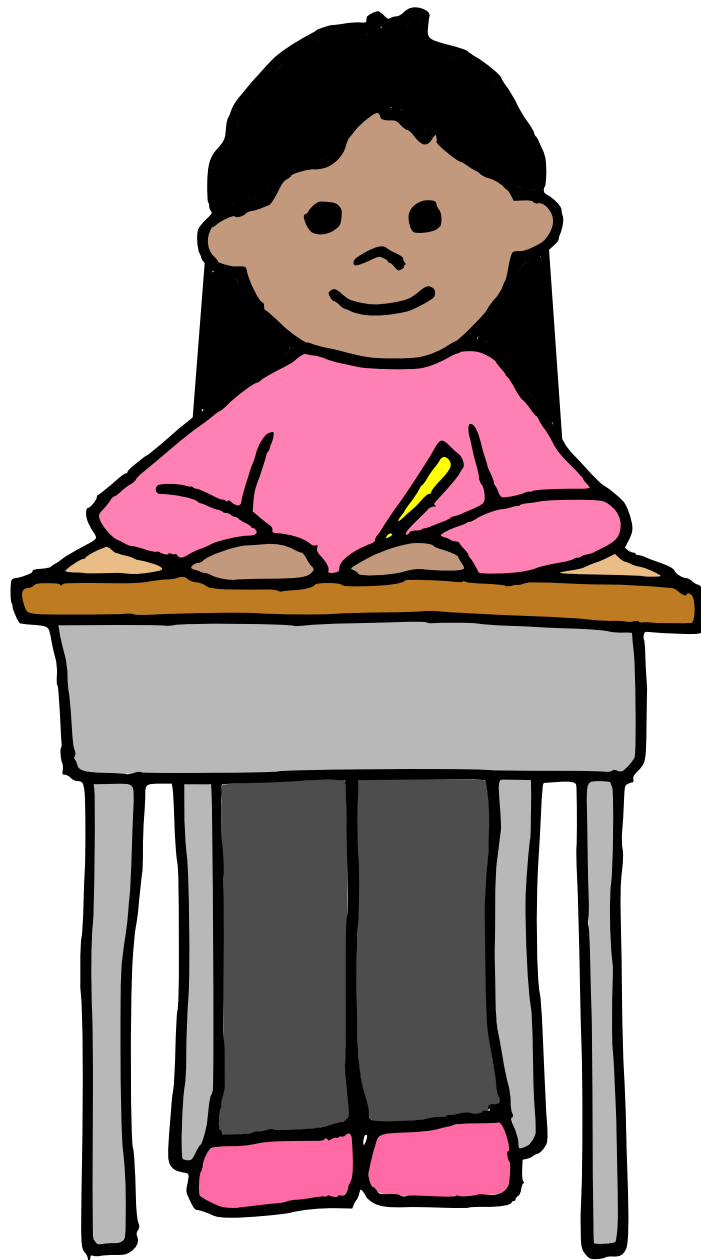

Making mistakes is okay. It is part  
of learning. Everyone makes  
mistakes sometimes.

Sometimes my teacher lets me  
correct my paper.

Correcting my work means I get to  
fix the ones that I made a mistake  
on.

Making mistakes is part of learning.  
Fixing my paper helps me learn. That  
is a good thing.
