

# AAC Modeling: Puzzles

Puzzles are a fun shared activity. Do a puzzle and model language on your learner's AAC system.

Don't require them to request each piece. Talk about the process. Ask real questions. Celebrate the successes and complain when it's tricky. Most importantly, enjoy connecting with your learner.

## Talk About the Process!

- WANT PUZZLE
- CHOOSE
- DO THAT
- TAKE OUT
- PUT IN
- NOT GO IN
- I HELP
- GO THERE
- YOU DO
- TURN IT
- GET MORE
- NEED HELP
- DO DIFFERENT
- I HAVE IT
- NEED THAT
- COME SEE
- ALL DONE

## Ask Questions!

- WHICH DO?
- WHERE GO?
- WHERE PUT?
- WHO DO?
- WHAT NEXT?

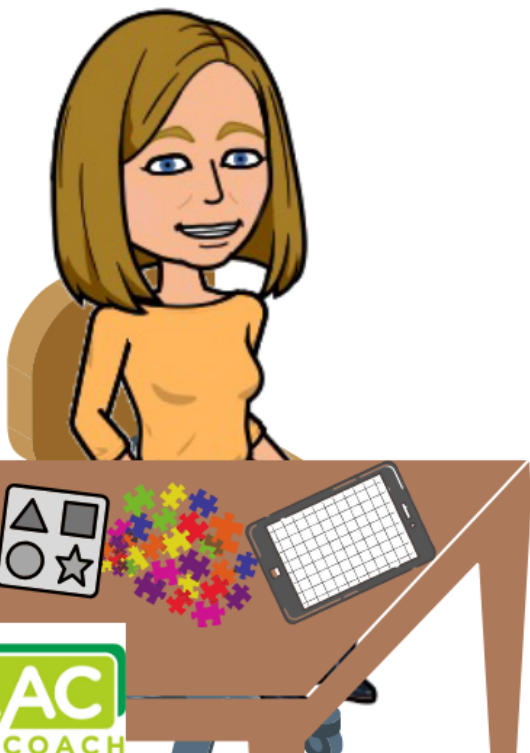

## Comment!

- AWESOME
- YOU DID IT
- UH, OH!
- IT HARD
- ANNOYING
- COOL!
- YOU SMART
- CAN'T DO IT
- I DON'T KNOW
- LOOK
- LIKE IT
- GREAT

## AAC Modeling: Puzzles

Puzzles are great! Make one together and use your child's AAC system to talk about it! Model without expectation that they will use their device right away. Focus on enjoying it together!
